

I first met Palle years ago when he participated in an event at Racehall AAR. At that time, Palle was not among the top performers, but since then, I have had the pleasure of training and sharing my own experience with him. It has been fantastic to see the great progress he has made. From being at the lower end of the field, he has now moved up to the very top. It is a pleasure to work with Palle, as he is very quick to learn, attentive, understanding, and a happy guy who loves racing 😊 .
